VIMAL KANZARIYA

Rajkot, Gujarat, India · +91 7778914714 · vimalkanzariya2307@gmail.com
linkedin.com/in/vimal-kanzariya · github.com/vimal-kanzariya

Professional Summary

Motivated B.Sc. IT (FinTech) student with practical experience in Full-Stack Web Development and building web-based applications. Skilled in JavaScript, React.js, Node.js, Express.js, Python, and database management using MongoDB and MySQL. Experienced in developing RESTful APIs, implementing authentication systems, and integrating frontend and backend technologies. Interested in building scalable software solutions and applying modern technologies to solve real-world problems.

Education

- **Bachelor of Science in Information Technology (B.Sc. IT – FinTech)** **Expected 2027**
  Marwadi University, Rajkot
  CGPA: 7.95 / 10

Technical Skills

Programming Languages:	C++, Python, JavaScript (ES6+), SQL
Frontend Development:	HTML5, CSS3, React.js, Tailwind CSS
Backend Development:	Node.js, Express.js, RESTful APIs
Databases:	MongoDB, Mongoose, MySQL
Tools & Platforms:	Git, GitHub, VS Code, Postman
Python Libraries:	Pandas, NumPy
Other Technologies:	JWT Authentication, Bcrypt, Multer, Blockchain Fundamentals

Projects

Stock Market Volatility Analysis Website · *Python, Flask, HTML, CSS, JavaScript* **2026**

- Developed a full-stack financial analytics application to analyze historical stock market data and identify market trends and volatility patterns.
- Implemented backend data processing using Python and financial data analysis libraries.
- Designed interactive visualizations to display stock prices, daily returns, moving averages, and historical volatility.
- Provided data-driven insights to help users understand market movements and evaluate potential investment risks.

PGFinder – PG Accommodation Platform · *Node.js, Express.js, MongoDB, Mongoose, JWT, Bcrypt, Multer* **2025**

- Developed RESTful APIs using Node.js and Express.js to manage PG accommodation listings, user profiles, and accommodation-related inquiries.
- Implemented secure user authentication and authorization using JSON Web Tokens (JWT) and password hashing with Bcrypt.
- Integrated Multer middleware for handling property image uploads and implemented authentication and error-handling middleware.
- Connected backend services with MongoDB for efficient data storage and management.
- **Live Project:** PGFinder Website

Certifications & Achievements

- **Blockchain Developer Training** – Completed professional online training certification issued by Simplilearn SkillUp.
- **FinTech Workshop Certification** – Participated in the National Workshop on "FinTech for Everyone: Digital Tools Shaping Modern Finance" organized by Tula's Institute and Wealth Wizard (February 2026).
- **AWS Cloud Practitioner Essentials** – Completed official cloud fundamentals training from AWS Training & Certification (June 2026).

Relevant Coursework

- **Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (C/C++).
- **Web Development:** Full-Stack Web Development, Frontend and Backend Development.
- **Data Science & Analytics:** Python Programming, NumPy, Pandas, Data Analysis and Visualization.
- **Specialized Domains:** Financial Technology (FinTech), Corporate Finance, Blockchain Development and Smart Contracts.
